## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

### Important Notices

This Replacement Supplementary Explanatory Memorandum (**RSEM**) relates to the resolutions proposed for the meeting of members ("**Growers**") of the Great Southern 2007 High Value Timber Project ARSN 123 528 950 ("**Project**") held on 15 April 2010 and any date to which it is adjourned ("**Meeting**"). It replaces the Supplementary Explanatory Memorandum dated 19 May 2010 and should be read in conjunction with the Explanatory Memorandum issued to Growers on 22 March 2010 ("**Explanatory Memorandum**").

The meeting was called by members under s252D of the Corporations Act 2001 with the assistance of AMA Teak Pty Ltd ACN 141 122 652 ("**AMAT**"). This RSEM was prepared by AMAT, African Mahogany (Australia) Pty Ltd ACN 125 481 192 ("**AMA**") and Lowell Capital Limited ACN 006 844 588 ("**Lowell Capital**") (together, the "**Preparers**").

#### Accuracy of information

The Preparers of this RSEM have exercised due care and diligence in seeking to ensure and verify the accuracy of its contents as at the date of this document, however there is a risk that the information is incomplete, inaccurate and/or out of date. The Preparers cannot guarantee that there are no misstatements or omissions that are relevant to the decision that Grower members make in voting on these resolutions.

As the Preparers are not in control of the Project, they have faced considerable difficulties in obtaining and verifying the accuracy of all information relevant to the Project. These difficulties were exacerbated by the change of control of the current Responsible Entity, Great Southern Managers Australia Limited ("**GSMAL**"), from the Receivers to the Liquidators on 2 March 2010. Furthermore, the Receivers and Liquidators are restricted by law as to what documents they can release.

The Receivers have provided officers of AMAT with access to many of the Project documents, but do not warrant that they are up to date or include all documents that may affect the rights and liabilities of the Responsible Entity of the Project. The Receivers and Liquidators were not involved in the preparation of this RSEM and are not responsible for its contents. AMAT has also obtained and reviewed publically available information about the Project. Information about associated risks for Growers to consider is set out in section 3 of this document and section 2 of the Explanatory Memorandum.

If Lowell Capital becomes Responsible Entity of the Project it will conduct due diligence on all Project documentation which GSMAL's Liquidators will be required by law to hand over to it. Lowell Capital reserves its rights to amend or not implement any aspect of its Proposal if material information arises after it becomes Responsible Entity of the Project.

If any material information arises between the date of this document and the Meeting, it will be posted on [www.africanmahoganyaustralia.com.au](http://www.africanmahoganyaustralia.com.au)

#### Confidentiality

The use of documents provided by the Receiver is restricted by a Confidentiality Deed. Accordingly, only publically available information has been used to create the information in this RSEM.

#### Procedural Matters

In accordance with the Explanatory Memorandum, this RSEM is being posted on the website [www.africanmahoganyaustralia.com.au](http://www.africanmahoganyaustralia.com.au) as an update to the Explanatory Memorandum.

## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

### Overview

#### 1. Meeting

The Notice of Meeting contains five resolutions (“**Resolutions**”) which have been amended as set out in Part B of this RSEM. The purposes of the Resolutions are as follows:

Resolution 1	Approve the Lowell Capital Proposal
Resolutions 2 & 3	Approve amendments to Project documents
Resolutions 4 & 5	Replace GSMAL and appoint Lowell Capital as Responsible Entity of the Project.

#### 2. Why Vote?

Resolutions 4 & 5 require an extraordinary resolution which is very difficult to obtain. It requires at least 50% of votes that can be cast (i.e. votes representing at least 50% of Woodlots). Therefore a Grower that wants the Projects to continue should vote for the Lowell Capital Proposal.

**If all resolutions are passed the Project will continue as amended** under the terms set out in this RSEM and the Explanatory Memorandum subject to any amendments that may be required in order to preserve tax deductibility of Growers’ initial contributions.

**If any resolution is rejected, the Project will almost inevitably be wound up.** This will mean:

- Great uncertainty as to what if any return Growers will receive.
- The Australian Taxation Office may claw back Growers’ deductions (if the Government does not amend the law as it has proposed).

You can vote by completing and returning the Proxy Form attached at Part C for your convenience.

#### 3. Replacement Supplementary Explanatory Memorandum

The RSEM has three parts:

- Part A – Changes to the Lowell Capital Proposal set out in the Explanatory Memorandum
- Part B – Changes to the proposed Amendments to Project Documents
- Part C – Proxy Form

#### Submit your proxy

All valid proxies that have already been lodged will be considered at the meeting. A member who has previously lodged a proxy is not required to lodge a new proxy. To be effective the proxy must be received by no later than 48 hours before the resumed Meeting.

**If you have already submitted a Proxy Form and would like your proxy to stand for the purposes of the Meeting, there is no need to submit a further Proxy Form.**

## PART A - LOWELL CAPITAL PROPOSAL

### RESOLUTION 1 – APPROVAL OF THE LOWELL CAPITAL PROPOSAL

#### 1. Changes to the Proposal

##### 1.1 Background

Following the issue of the Explanatory Memorandum dated 22 March 2010 to accompany the notice of meeting for the Project (**Explanatory Memorandum**) and the meeting of Growers held on 15 April 2010 adjourned to 24 May 2010, a number of growers, including those represented by a group known as the Growers Working Group (**GWG**) have requested amendments to Lowell Capital's proposal for the Projects (**Proposal**).

The Preparers have agreed to make a number of changes to the Proposal, which they believe will make the Proposal more attractive to Growers. This RSEM sets out those changes to enable Growers to make an informed decision about whether to approve the resolutions set out in the Notice of Meeting dated 3 March 2010 (**Notice of Meeting**), as amended in Part B of this RSEM. Growers are asked to consider, and if thought fit, pass the first resolution in the Notice of Meeting to approve the new Lowell Capital Proposal (**New Proposal**). This section describes the changes to the proposed amendments and their effect.

Growers are also asked to consider, and if thought fit, pass the second and third resolutions regarding modifications to the Constitution and the Grower Agreements set out in Part B of this RSEM which include marked up amendments to the modifications contained in Part B of the Explanatory Memorandum.

##### 1.2 Overview of the changes to the Lowell Capital Proposal

Growers have requested and Lowell Capital has agreed to change its Proposal in the following areas:

- (a) increasing the certainty of tax treatment of contributions for Growers;
- (b) clarifying the Responsible Entity's entitlement to fees in the event of resignation or insolvency;
- (c) clarifying that the Annual Fee payable to the Responsible Entity forms part of the RE's Additional Fee;
- (d) removing the Responsible Entity's ability to borrow and grant security against the assets of the Project;
- (e) inserting a governance mechanism involving a Grower Sub-Committee in relation to any Other Income derived from Woodlots in the Projects;
- (f) allowing Growers who make Additional Contributions to share the proceeds of Growers who forfeit their interest in the Project;
- (g) allowing Growers to increase their investment by making further contributions to the Project; and
- (h) creating an opportunity for Growers' to share in proceeds of Commercial Thinnings and any Other Income derived by the Investment Manager above a certain threshold.

Part A

### 1.3 Tax Deductibility

#### 1.3.1 Taxation Determinations

Since the issue of the Explanatory Memorandum, the Australian Taxation Office (**ATO**) has issued a final taxation determination TD 2010/7 that is relevant to the Project.

(a) Change of Responsible Entity (TD 2010/7)

Broadly, the taxation determination provides that:

- (i) where, despite the change of Responsible Entity, the managed investment scheme continues to be implemented in accordance with the relevant product ruling – the commissioner considers that the ruling will continue to apply and may be relied upon by investors; however
- (ii) where the change of the Responsible Entity results in there being a 'material difference' in the implementation of the managed investment scheme – an investor will not be able to rely on the product ruling.

There will be a "material difference" if there is a change in the fees for investors that means that there is an objective expectation that the scheme will now not meet one of the following tests or produce assessable income for an income year in excess of deductions within the commercially viable period:

- (i) assessable income from the business activity is at least \$20,000 (section 35-30 ITAA 1997);
- (ii) for at least 3 of the past 5 income years, the sum of the deductions attributable to that activity is less than assessable income for that activity for the year;
- (iii) total reduced costs bases of real property used on a continuing basis is at least \$500,000; and
- (iv) total value of assets used on a continuing basis to carry out the activity (including leased assets) is at least \$100,000.

The draft taxation determination further provides that if there is a 'material difference' in the implementation of the scheme, then the relevant product ruling will ordinarily be withdrawn with effect from the time the material difference occurred. Where the difference is not material, an addendum to the product ruling will ordinarily be issued to confirm the situation.

In particular, the non-binding explanation in Appendix 1 to the draft taxation determination provides that:

"...where the arrangement commences and subsequently materially changes from the ruled scheme, the withdrawal may take effect from immediately before the time the material difference occurred. This may enable participants to be able to rely on the ruling in relation to deductions already incurred and claimed."

The above suggests that change in Responsible Entity and the increase in the fees payable under the Projects, the product ruling relied upon by Growers at the time of acquiring their interests in the Projects should continue to apply and may be relied upon by Growers.

## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

- (b) Draft Taxation Determinations TD 2009/D13, TD 2009/D14, TD 2009/D15 and TD 2009/D15

The effect of these draft taxation determinations were set out in section 12 of the Explanatory Memorandum. Growers should note that these draft taxation determinations have not been finalised as at the date of this RSEM.

On 21 October 2009, the Federal Government announced that it intends to amend the current tax legislation to protect investors in forestry managed investment schemes from unintended and adverse tax outcomes which would otherwise arise under current tax legislation as a result of events which occur within four years of the investors first incurring expenditure under the scheme and which are genuinely beyond the control of the investors. The announcement provides, by way of example, that the amendments to the tax legislation should apply to investors affected by the insolvency of a responsible entity of a forestry managed investment scheme.

However, Lowell Capital has not yet sought a tax ruling or confirmation from the ATO on the continued deductibility of Growers' contributions if the Proposal is approved. In particular, the modification to the Project involving forfeiture of growers' interests in the Project upon failure to make Additional Contributions may not be considered to be genuinely beyond the control of investors as envisaged by the Federal Government.

In this situation, you should ensure that you seek your own financial and taxation advice in relation to the tax consequences of not making Additional Contributions.

### 1.3.2 The New Proposal

Under the New Proposal, Lowell Capital will only make the proposed amendments to the Constitution set out in this RSEM after obtaining from the Australian Taxation Office (ATO) a ruling or an addendum to a ruling that preserves deductions received by Growers under Product Ruling 2007/7 (**Product Ruling**) or confirmation that the deductions will be preserved in relation to the Project, and attempting to structure additional contributions in a format that achieves deductibility for Growers where possible.

The appointment of Lowell Capital is not likely to jeopardise the tax deductions that Growers have already received, however, there is a risk that some of the changes that Lowell Capital proposes to make after it is appointed as the Responsible Entity of the Project may do so. Accordingly, under the New Proposal, Lowell Capital agrees to engage with the ATO to ensure that if the New Proposal can be implemented in a manner that will preserve deductions previously received by Growers under the Product Ruling than those modifications to the constitution of the Project (**Constitution**) as set out in Part B of this RSEM (**Proposed Constitutional Changes**) it will make non-material changes to the Proposed Constitutional Modifications prior to implementing such changes.

If material changes are required to the Proposed Constitutional Changes in order to obtain a ruling or an addendum to a ruling from the ATO or a confirmation from the ATO that deductions will be preserved under the Product Ruling, the Responsible Entity will bring those changes to a meeting of Growers to consider, and if thought fit, pass resolutions approving the amended modifications to the Constitution.

Under the New Proposal, the second resolution relating to the Responsible Entity modifying the constitution has been amended to reflect Lowell Capital's new proposed approach to the implementation of its proposed constitutional amendments. See Part B for the revised wording of resolution 2.

In order to facilitate a ruling or confirmation from the ATO in relation to the preservation of deductions under the Product Ruling, Lowell Capital is not proposing to make the changes

that were previously set out in the Explanatory Memorandum relating to the derivation of Other Income at this point in time. The Proposed Constitutional Modifications relating to the derivation of Other Income have been removed in Part B of this RSEM. After Lowell Capital is appointed as Responsible Entity of the Project it will consider how best this outcome can be achieved while preserving Growers' deductions received under the Product Ruling.

Under the New Proposal Additional Contributions will be held on trust for Growers in the Contributions Fund until the Responsible Entity determines that it is able to make appropriate modifications to the Constitution that will not affect deductions already received by Growers who wish to retain interests in the Project. It will notify Growers on making such a determination and at least 5 days before implementing the Proposed Constitutional Changes. If the Responsible Entity determines in good faith after giving Growers 21 days notice of the basis of such a determination and having considered any submissions made by Growers in that time, the Responsible Entity will return Additional Contributions to Growers less the following costs, capped at \$100,000 in total:

- (i) cost of engaging and negotiating with the ATO an appropriate ruling or addendum to a ruling or confirmation regarding the deductibility of contributions received by Growers under the Product Ruling;
- (ii) transactional costs to effect the change of Responsible Entity;
- (iii) legal costs involved in preliminary advice regarding court approval for the implementation of the New Proposal as referred to in section 2.3.9 of the Explanatory Memorandum;
- (iv) legal costs involved in any action taken by the Responsible Entity in relation to the default notices issued by the liquidators appointed to the land owning entity; and
- (v) legal costs involved in preparing the Lowell Capital Proposal to a maximum of \$40,000.

The New Proposal includes an amendment to the provisions in the Constitution relating to the Contributions Fund in clause 3.3 and the Responsible Entity's entitlement to reimbursement in clause 31.4 in Part B of this RSEM.

Growers should note that to the extent that Additional Contributions are used for the purposes set out in paragraphs (i)–(v) above the Additional Contributions will not be deductible contributions for Growers. However, after these costs, the Responsible Entity is intending to use the Additional Contributions to fund the provision of Ongoing Services, and to the extent that the Additional Contributions are used for this purpose, they may be deductible, subject to a ruling from the ATO in this regard.

Lowell Capital has not yet sought a tax ruling or confirmation from the ATO on the deductibility of Growers' Additional Contributions if the Proposal is approved. You should ensure that you seek your own independent financial and tax advice in this regard until such ruling or confirmation is obtained.

### 1.4 Responsible Entity Remuneration

Lowell Capital has agreed that its remuneration will be amended so that it will be entitled to its fees in three stages:

- (i) 20% on appointment as Responsible Entity of the Project;

## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

- (ii) 30% five calendar years after being appointed as Responsible Entity of the Project; and
- (iii) the remaining 50% accruing on a pro rata basis over the remainder of the Project.

The proposed amendments to clause 27.2 under the Proposal have been amended in accordance with these three stages of remuneration.

In addition, in the event of the Responsible Entity resigning or being voted out by growers, the amendments to clause 27.2(e) provide that if the Responsible Entity voluntarily resigns it will be entitled to its fee pro rata for the years it acted as Responsible Entity, subject to the proper performance of and if the Responsible Entity is replaced by the Growers in relation to the proper performance of its duties as Responsible Entity.

The New Proposal also makes it clear that the Annual Fee of 10% of Additional Contributions or after five years \$40,000 per annum (indexed in line with CPI) payable to the Responsible Entity under clause 27.3 of the Constitution will form part of and will not be in addition to the increased remuneration the Responsible Entity is entitled to under clause 27.2 of the Constitution.

### 1.5 Investment and Borrowings

Under the New Proposal, the Responsible Entity's right to borrow money and grant security over the assets of the Project under clause 12.2 of the Constitution has been removed along with any reference to borrowed monies in the Grower Agreements.

### 1.6 The Manager's Other Income

Under the Proposal, the Manager would have been entitled to raise Other Income through hay production and sale, agistment of land, lease and sublease of land, growing and sale of sugarcane and any other type of income the Responsible Entity deems appropriate. This will assist in funding the Ongoing Services after the exhaustion of the Contributions Fund. The Responsible Entity would not have been able to grant any sub-lease to the Manager to derive Other Income unless it determined that it would not be adverse to Growers' interests to do so.

In response to queries by Growers in relation to the governance of the Responsible Entity's potential future discretion to grant a sub-lease (under power of attorney granted by the Grower) to the Manager, Lowell Capital and the Manager have agreed under the New Proposal to the appointment of a Grower's Review Committee (GRC), consisting of five growers (or more should the committee later decide) to be appointed at a meeting of Growers convened within three months of the appointment of Lowell Capital as Responsible Entity, for a term of three years. At the end of each three year term, a further meeting will be held to appoint a new GRC, until the termination of the project. The GRC will be consulted by the Manager from time to time concerning the conduct of the Project, and the Manager will meet with the GRC at least twice a year for that purpose. The reasonable costs (including any reimbursed costs paid to Growers) of convening and holding meetings of Growers and holding the consultation meetings will be paid for by the Responsibility Entity as a cost of the scheme. For the avoidance of doubt, in relation to failed land, the following matters will be the subject of consultation:

- the choice of an independent forester to provide an opinion to the Manager as to whether the land has failed; and
- the contents of the forester's report, which will be provided to the GRC.

The above consultation must occur before the Responsible Entity will be permitted to grant a sub-lease to the Manager for the purposes of deriving Other Income.

## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

In addition, Lowell Capital has agreed that further changes will be made to the Lease and Forest Right Agreement so that Growers and the Responsible Entity would split equally any proceeds from Other Income (from both the 2007 and 2008 Projects) above \$400,000 per annum after taking into account any shortfall of budgeted expenses for which the Responsible Entity is entitled to reimbursement and reasonable future operation costs relating to the derivation of Other Income. The proceeds of Other Income would be assessed in 5, 10, 15 years and at the end of the Project to determine whether any the Other Income derived averaged across the preceding five years is above \$400,000 (indexed in line with CPI).

However, Lowell Capital has determined that to facilitate the Responsible Entity obtaining from the ATO a ruling or an addendum to a ruling or a confirmation that Growers' contributions for which they have already received a deduction under the Product Ruling will be preserved, it will not seek to make the Proposed Constitutional Modifications relating to the derivation of Other Income at this point in time. The Proposed Constitutional Modifications relating to the derivation of Other Income have therefore been removed in Part B of this RSEM. After Lowell Capital is appointed as Responsible Entity of the Project it will consider how best the outcome set out in the preceding paragraphs can be achieved.

### 1.7 Commercial Thinnings

In the Proposal the Manager will also be entitled to retain the proceeds of Commercial Thinnings (via the Responsible Entity) in consideration for providing and funding the Ongoing Services until harvest. However, the New Proposal provides a potential benefit for Growers because Lowell Capital has agreed to share any surplus net proceeds from Commercial Thinnings equally with Growers after providing for the following:

- (i) any remaining obligations under any lien held by the Receivers or Liquidators;
- (ii) provision for "reasonable" future operational costs of the Responsible Entity;
- (iii) any expenditure by the Responsible Entity for which it is entitled to be reimbursed;
- (iv) any residual obligations associated with the underwriting of Additional Contributions;
- (v) \$1 million in 2017 and \$4 million in 2021 for the Responsible Entity (in aggregate including 2007 and 2008 Projects).

The amendments to clause 31.1 of the Constitution have been marked up to reflect this arrangement.

### 1.8 Forfeiture of Grower Entitlements

Growers will be requested to make out of pocket contributions of \$100 per Woodlot per year for the first five years after Lowell Capital's appointment as Responsible Entity of the Project. Under the Proposal, in any year that a Grower did not make such a contribution, the Grower surrendered 20% of their entitlement to Net Harvest Proceeds as a Non-Contribution Additional Fee for each Woodlot in respect of which a Grower Contribution is not made. Under the New Proposal, the percentage of the grower's interest that is forfeited as a Non-Contribution Additional Fee is 20% for the first year that the grower fails to make Additional Contributions, 20% the second year and 60% the third year.

If a Grower makes no contributions in respect of any Woodlots over a 3 year period (previously 5), the Grower will surrender 100% of their entitlements as a Non-Contribution Additional Fee and will cease to be a member of the Project.

## Replacement Supplementary Explanatory Memorandum

Growers Meeting – Great Southern 2007 High Value Timber Project

Part A

If the sum of Additional Contributions and Increased Contributions retained by the Responsible Entity is equal to or greater than 40% of the Contribution Cap, the Responsible Entity will hold for the benefit of all Growers who remain in the Project at the time of final harvest, 50% of the Non-Contribution Additional Fees, in respect of which no Grower has an entitlement as a result of making Increased Contributions (see below).

This amendment to the proposal has been reflected in the marked up amendments to clause 44(j) of the Constitution in Part B of this RSEM.

Lowell Capital has not yet sought a tax ruling from the Australian Tax Office (**ATO**) in respect of the tax deductibility of Additional Contributions. The Responsible Entity will engage the ATO in relation to the deductibility of Additional Contributions prior to implementing the modifications set out in Part B of this RSEM. You should ensure that you seek your own independent financial and tax advice in this regard.

### 1.9 Opportunity for Growers to make increased contributions

Lowell Capital have agreed that if some Growers fail to make their required Additional Contributions, other growers who wish to remain in the Project can make further contributions in \$100 lots. The Responsible Entity will have the discretion to accept such increased contributions to the extent that growers have forfeited their interest or not made their Additional Contributions. Growers who choose to make these increased contributions will be entitled to Non-Contribution Additional Fees in respect of the forfeited entitlement to the value of 20% of the Net Proceeds of Sale relating to the Woodlot. If increased contributions are made in lots of \$400, growers will receive a 20% discount and obtain 5 forfeited entitlements of 20% of the Net Proceeds of Sale relating to a Woodlot.

If there is an oversubscription by growers for these increased contributions, the Responsible Entity will return the money to the growers in proportion to the other growers that made increased contributions.

The marked up amendments to reflect this arrangement can be found in clause 44(h) and (i) of Part B of this RSEM.

## 2. Updated information

### Receivers' Lien

On 23 March 2010, Lowell Capital received notice from the Receivers that estimate value of their Lien up until 30 December is \$580,000 for the 2007 Project and \$430,000 for the 2008 Project.

### Default Notices

The Liquidators of the land owning companies have refused to withdraw the default notices issued by them on 25 February 2010 but have advised Lowell Capital that they do not propose to do so before the Growers' meeting. However, the Liquidators have not indicated whether they would terminate the leases after the meeting and have reserved the right to do so. Lowell Capital believes that if the Liquidators were to terminate the leases, it would have a strong case for relief against forfeiture and have advised the Liquidators of its view in this regard.

## 3. Risks

It is important that Growers read the risk disclosure included in section 4 of the Explanatory Memorandum carefully as there are considerable risks associated with agricultural managed

Part A

investment schemes and the restructure of schemes after the insolvency of the Responsible Entity and the length of time until harvest.

In addition to those risks Growers should also be aware that there is a risk that the information in this RSEM is incomplete or inaccurate because the Preparers' access to relevant information is limited as described on page 2 under the heading "Important Information".

Further, there is a risk that the Proposed Constitutional Amendments will require amendment prior to implementation in order to preserve the deductions obtained by growers under Product Ruling 2007/7 in relation to the Project. If material changes are required to the Proposed Constitutional Amendments to achieve this, the Responsible Entity will be required to call a further meeting of Growers to consider the further modifications. There is a risk that the modifications may not be approved by Growers and Additional Contributions will be returned to Growers after accounting for the legal and transactional costs of the Proposal set out in paragraphs (i)-(v) of section 1.3.2 of the RSEM.

Growers are also referred to the issue of the Default Notices in the section above. There is a risk that the Liquidators will terminate the leases in which case Lowell Capital will have to consider making an application for relief against forfeiture through the courts which may or may not be successful. If the leases are terminated and remain so, the Projects are likely to be wound up.

#### 4. Disadvantages

The resolutions involving amendments to the Project documents are special resolutions because elements of them are adverse to the existing rights of Growers under the Project. The law requires that such amendments are made by a special resolution of members of a scheme.

The key aspects of the Proposal that affect Growers adversely are:

- (i) a requirement to make additional Grower Contributions;
- (ii) the reduction in and possibly full surrender of entitlements to the benefits produced by the Project if a Grower does not make the additional Grower Contributions;
- (iii) an increase in remuneration required to be paid by Growers to the Responsible Entity out of Net Proceeds of Sale; and
- (iv) an increase in the scope of the Responsible Entity's right to be indemnified out of the Proceeds Fund.

Details of each of these adverse effects are described in the Explanatory Memorandum.

#### 5. What to do next to support the Proposal

You should carefully consider the New Proposal and seek independent financial and taxation advice in relation to your situation.

If you would like the New Proposal to proceed, you should vote in favour of all of the resolutions by:

- (a) submitting your Proxy Form and voting in favour of all of the resolutions; or
- (b) attending the Meeting and voting in favour of all of the resolutions.

- (b) To the extent of any inconsistency or repetition between this clause 27.2 and any clause of the Agreement which would result in the obligation to pay the Additional Fee under the Agreement when it has already been paid under this Constitution, this clause 27.2 applies or prevails to the absolute exclusion of the relevant clause of the Agreement.
- (c) The rights of the Responsible Entity to receive the additional remuneration specified in paragraphs (a) and (b) are only available in relation to the proper performance of the Responsible Entity's duties.
- (d) In the event of an Insolvency Event in respect of Lowell Capital Limited whilst Lowell Capital Limited is Responsible entity for the Project or in the event that the Growers choose to replace Lowell Capital as Responsible Entity, Lowell Capital Limited's entitlement to the proportion of the Additional Fee which is to arise and accrue under clause 27.2(a)(1) will be the lesser of the total actual costs and expenses incurred by Lowell Capital Limited in being appointed and acting as Responsible Entity for the Project or ~~5~~20% of the Additional Fee.
